5K Surface Technologies | All rights reserved.

5K Surface Technologies is a leading company that continuously develops new and innovative solutions thanks to its experience in the sector, technological infrastructure, expert teams and innovation-focused R&D culture.

Our products, which stand out with their aesthetically rich designs, superior quality, durability and functional solutions offered to users, can be produced with ultra-glossy, ultra-matte and three-dimensional textured surface options.

Combining high technology and art, our wide range of products appeals to many design styles such as modern, classical, minimalist, sophisticated and naturalist in furniture and interior design.

Our catalog includes interior table top designs that demonstrate the use of our products in various application areas in a harmonious manner.

HIGH GLOSS TABLE TOP FEATURES

Extremely resistant to scratches and abrasions

Surfaces resistant to impacts and wear that may occur in contact with objects.

High brightness

Unique surfaces that offer a mirror effect with their reflections and finishes.

Stain resistance

Products resistant to all kinds of food and chemical stains for daily use.

Long lasting

Long-lasting durability against harsh environmental conditions.

Environmentally friendly

Products produced with certified raw materials obtained from sustainable forests.

Antibacterial and does not contain toxic substances

Protective shield that prevents the spread of harmful microorganisms on the surface.

Light fastness

Thanks to the high resistance to light, colors remain unchanged.

SOFT TOUCH MATT TABLE TOP FEATURES

Resistant to scratches and abrasions

Surfaces resistant to impacts and wear that may occur in contact with objects.

Surface matteness

Superior quality, natural-looking surfaces obtained by providing perfect distribution of reflected light with Excimer technology.

Stain resistance

Products resistant to all kinds of food and chemical stains for daily use.

Long lasting

Long-lasting durability against harsh environmental conditions.

Environmentally friendly

Products produced with certified raw materials obtained from sustainable forests.

Antibacterial and does not contain toxic substances

Protective shield that prevents the spread of harmful microorganisms on the surface.

Light fastness

Thanks to the high resistance to light, colors remain unchanged.

Soft touch effect

Soft surfaces with velvet and silky texture.

Fingerprint prevention

Surfaces that are fingerprint resistant and easy to clean.

3D TEXTURED MATT TABLE TOP FEATURES

Natural surfaces

Surfaces that provide a natural and realistic finish.

Stain resistance

Products resistant to all kinds of food and chemical stains for daily use.

Easy to clean

Thanks to its quality coating, the surfaces are easy to maintain and clean.

Antibacterial and does not contain toxic substances

Protective shield that prevents the spread of harmful microorganisms on the surface.

Color stability

Thanks to the high resistance to light, colors remain unchanged.

Long lasting

Long-lasting durability against harsh environmental conditions.

Environmentally friendly

Products produced with certified raw materials obtained from sustainable forests.
